

**Wednesday 20<sup>th</sup> January 2021**

**T: Can I make comparisons between ancient Egypt and modern life?**

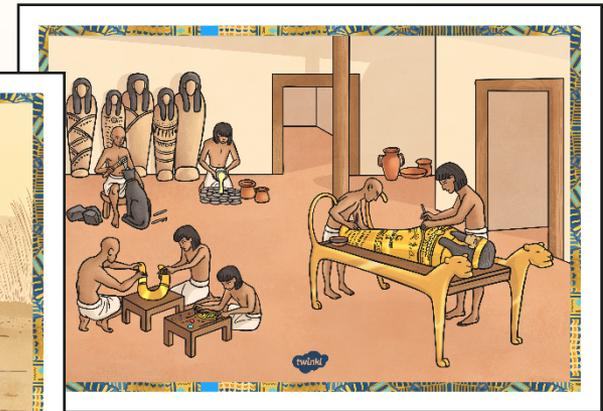

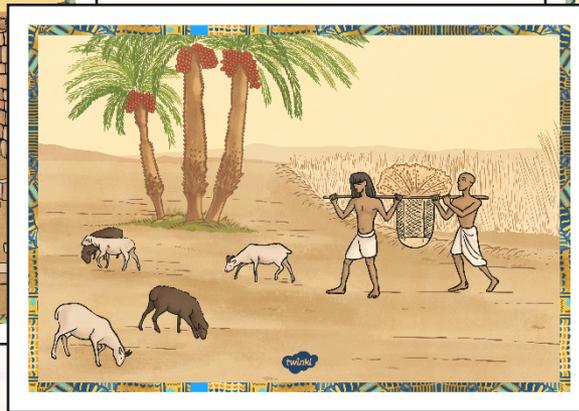

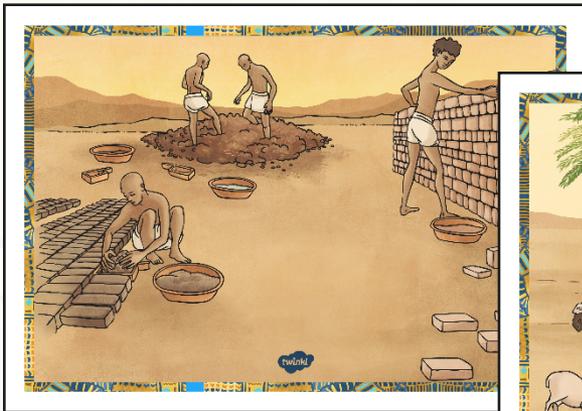

# River Nile

The River Nile runs through Egypt. Most people live along and around it today. This was also the case in ancient times. This is because the land near the Nile is a place where crops can be grown. The rest of Egypt is desert. The people of ancient Egypt depended on the Nile to survive.

# Picture Evidence

There were no cameras thousands of years ago to take photos in ancient Egypt, but using different sources of evidence, these pictures have been drawn by an artist to show what life might have been like.

Look at the pictures on the next few slides.

What is happening?

Why do you think that?

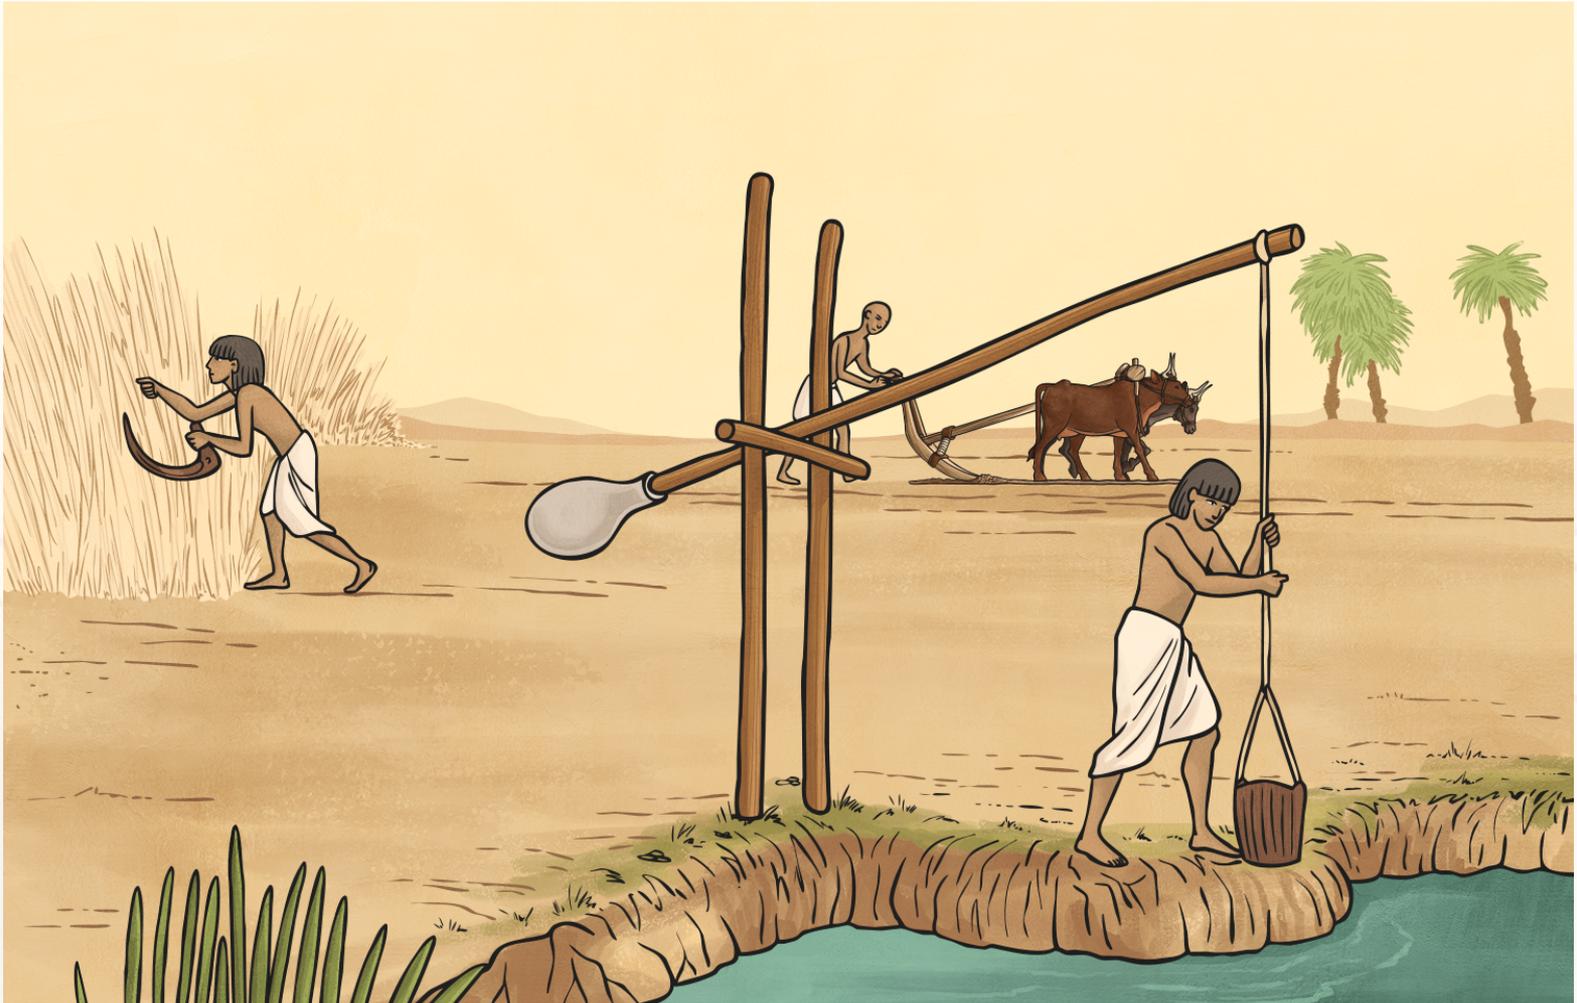

**Think about how the Egyptians travelled. Can you see any cars?**

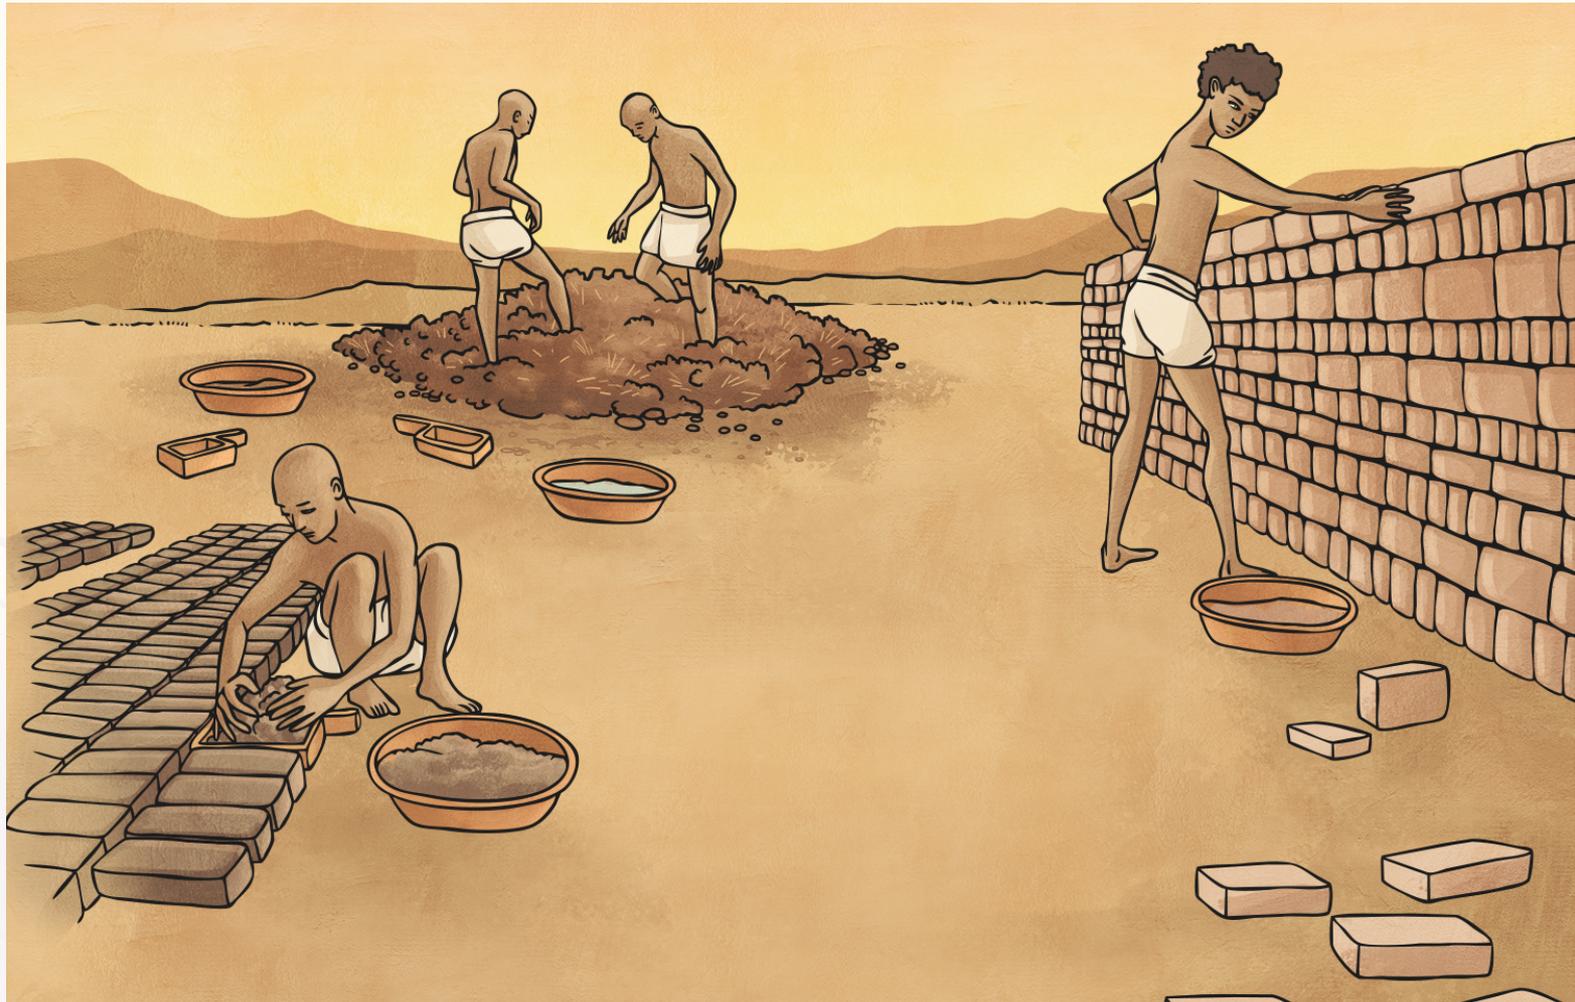

**What do you think is happening in this picture? Can you spot the mummy?**

**The people are carrying grain from the fields. What do you think they are going to use it for?**

**What do you think the Egyptian is doing with the bucket?**

**What do you think the Egyptians are trying to do in this picture?**

**What do you think these Egyptians are doing?**

# Today's Activity

Complete the table to compare life in ancient Egypt and life today in 2021. This table will be available as a word document for you to fill in. If you get stuck, look back at the pictures in the previous slides. Are there any similarities between your lives and everyday life in Egypt?
